

## Molecular Pathogenesis and Treatment of Chronic Myelogenous Leukemia

By Masahiro Kizaki

Springer-Verlag GmbH Dez 2015, 2015. Buch. Book Condition: Neu. 23.5x15.5x cm. Neuware - Covering the history of breast cancer, theory of radiofrequency ablation (RFA), resection of carcinoma, imaging before and after non-surgical ablation therapy and quality of life, this book focuses on extensive breast-conserving treatment for the preservation of a cosmetically acceptable breast. It investigates the feasibility of percutaneous, minimally invasive techniques to ablate breast tumors and several modalities such as cryosurgery, laser ablation, thermoablation and high-intensity focused ultrasound. Non-surgical Ablation Therapy for Early-stage Breast Cancer centers on RFA and provides insights into cryoablation and focused ultrasound surgery. RFA has been shown to be effective for treating tumors in many types of tissue, including liver, bone, brain, kidney, pancreas and prostate. As such this book is a valuable resource for breast and general surgeons, radiation oncologists and medical oncologists in all areas. The extensive discussions enable scholars to gain radiological expertise and a basic understanding of molecular biology, leading to better surgery without scalpels. 193 pp. Englisch.
