Firstly, it shows its characteristics in terms of its historical, economical and social background. Secondly, an analysis of the assumptions in connection with changes in the political and economic environment and emerging problems is given. , abstract: The Swedish Model (SM) was made famous because of its special character relating to industrial relations. The reasons for the failures of the system are complex. In the following some points about its failure are mentioned, however there are several other aspects, which can be discussed. The theme of this essay will be the changes in environment and their impact on the SM that can be seen as symptoms of the failures in the SM. The main reasons for the problems in terms of the SM are the static assumptions or framework of the system without covering dynamic effects and necessary reactions to changes. The main assumption of the class compromise between capital and labour cause many problems, however, it also made SM very unique and was the reason for the admired welfare system and economic growth. The problems and the interdependences between developments in respect of changes in environment will be analysed below. 16 pp. Englisch.
